

## Stop Six-Relationships

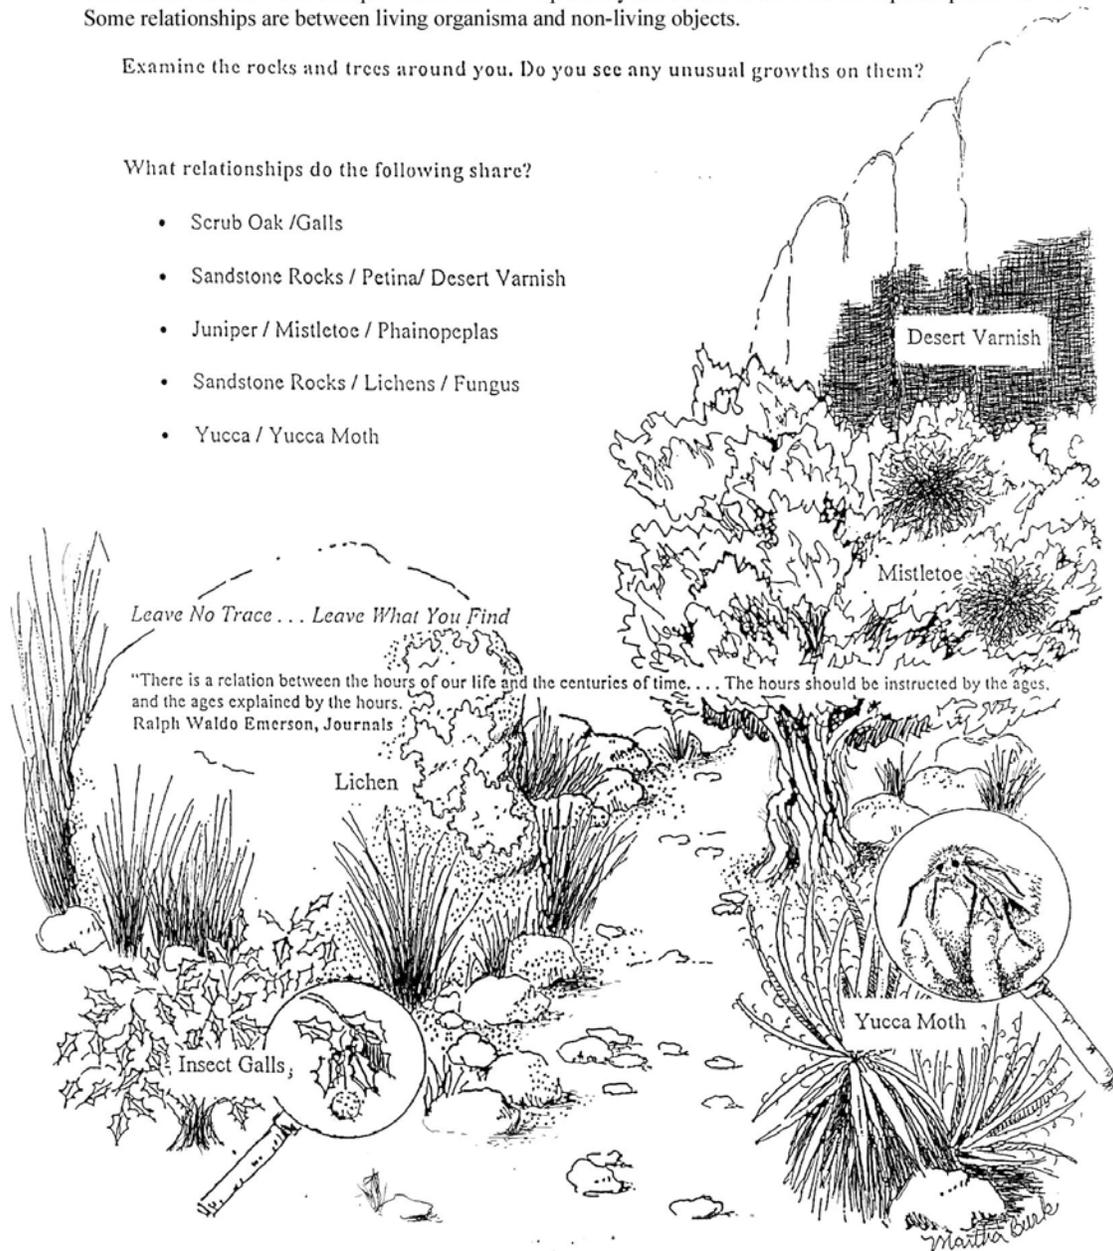

### RELATIONSHIPS

Many times in a biologically diverse community connections are made between two elements of nature that lead to unusual relationships. Some relationships are symbiotic and some relationships are parasitic. So Some relationships are between living organisms and non-living objects.

Examine the rocks and trees around you. Do you see any unusual growths on them?

What relationships do the following share?

- Scrub Oak /Galls
- Sandstone Rocks / Petina/ Desert Varnish
- Juniper / Mistletoe / Phainopeplas
- Sandstone Rocks / Lichens / Fungus
- Yucca / Yucca Moth

*Leave No Trace . . . Leave What You Find*

“There is a relation between the hours of our life and the centuries of time. . . . The hours should be instructed by the ages, and the ages explained by the hours.

**Ralph Waldo Emerson, Journals**
